CREATIVE MOMENTS & 'OBJECT LESSON'
Opening Saturday 26 July 2014 - 12 > 2pm

Creative Moments is the inspirational, annual joint exhibition of the Shoalhaven Woodcraft Society Inc., Nowra Spinners & Weavers Inc. and the Shoalhaven Potters Inc. This local, non-competitive exhibition provides an opportunity for the artisans and crafts people who are members of these three community groups to share their gifts and talents with all others, extending their own enjoyment in their craft.

The Creative Moments exhibition provides an outlet for those who mould, sculpt, carve, plane, chisel, knit, felt and weave their art with clay, wood or wool to jointly exhibit their works from these three natural and tactile media which are complementary, enhancing and enriching the experience. Many of the items on exhibition will be for sale.

'**Object Lesson**', exhibiting in the Main Gallery, features 7 local professional artists applying their creative skillset in the broader community service context. Working across many different mediums these artists cover film making, photography, printing and painting to make a difference in areas such as social history, education, disability and health.

This inventive project, created by Shoalhaven City Council Waste Services, highlights the concern around the 1000 tonnes of textiles disposed of each year in the Shoalhaven. The members of the St Georges Basin Creative Craft Group and the G6 Group of artists have worked on interpreting a number of landscapes which are part of the Lady Denman collection.
